## The Advance of the Spirit: Deep Coaching for Deep Awakening of True Human Potential

*Marilyn Atkinson, April 1-4, 2016*

*Aston Hotel, Kuta, Bali*

In this program you will begin to hear the orchestra of your values and your inner purpose as a clear call to awakening. This is a program for you to take inner self discovery to a whole new level. The program leads to profound new awareness of your purpose and aims. And it comes entirely from your own wellspring of inner learning. Keep updating your skills and earn 25 CCEUs. (12 of which are ICF Core Competencies).

There are levels of awareness that we can bring to our inner questions and answers and the program will allow you to discover many more levels of awareness that will now become available ever after. More and more people have discovered the profound inquiry they can make in four separate but simple integrity areas where they discover their own best means for connecting with inner guidance.

Four of the many lessons you will learn in this course are:

- The four powerful Alignment processes.
- Focusing on Values to connect to your inner truth.
- Exploring the inner journey as a healing passageway.
- Gain the tools of the spirit that provide a genuine gift to humanity's future.
